1994 Editorial Index

"Special Issue" refers to "Point-of-Care-Testing IV: Case Studies" (Vol. 26, No. 9S), September

MLO

Vol. 26, Nos. 1–12

Subject Index	Page 61
Author Index	64
Management Q & A Index	66
Tips on Technology Index	67

SUBJECT INDEX

Accreditation *(see Inspection/accreditation)*

AIDS
AABB weighs appeal in HIV negligence case (Washington Report). Oct/20
An unrelenting killer spreads worldwide. Oct/29

Alternate site testing *(see Point-of-care testing)*

Automation *(see Computers; Technology)*

Bedside testing *(see Point-of-care testing)*

Benefits and perks
Pay strategies, Part 1: Toward a new pay strategy. April/24. Part 2: Managing employee pay the new way. May/46. Part 3: Negotiating a compensation package. June/42

Blood banking
Legal aspects of transfusion medicine. Nov/33
When drawing blood draws questions. Dec/32

Budgeting *(see Financial management)*

Burnout *(see Stress and burnout)*

Career development
A rural lab's response to CLIA's personnel standards. Feb/40
A do-it-yourself orientation program for the new lab supervisor. April/38
If you always wanted to be a commissioned officer. April/42
Start your graduate off right (Viewpoint). July/9
Revamping the lab's staffing structure. Aug/46
Is career planning an oxymoron? (Viewpoint). Sept/9
Succession planning: A manager's guide. Sept/40

Chain of command
Is bypassing your boss political suicide? (Viewpoint). June/9

CLIA '88 *(see also: Government relations)*
Washington State wins CLIA exemption (Washington Report). Jan/18
Administration tips hand on new CLIA changes (Washington Report). Feb/16
A rural lab's response to CLIA's personnel standards. Feb/40
Forms to help you document for CLIA. March/45
CLIA, Part 1: CLIA after year 1: No help to patients, and a hindrance to labs. May/20. Part 2: Dealing with inspections and paperwork under CLIA. May/30
CLIA advisers reject APT test category (Washington Report). June/21
CLIA on hold as labs await regulatory decisions (Washington Report). July/21
Is CLIA understood by clinical laboratorians? July/54
CAP gains deemed status under CLIA (Washington Report). Aug/19
CLIA implementation inches onward (Washington Report). Nov/19
HCFA report card: Where CLIA stands (Washington report). Dec/16

Communication
Performance feedback: The crown jewel of communication. Jan/43
Improve communication skills with question probes. Feb/46
How to be "note"-worthy: Tips for writing effective memos. Aug/33
How to prepare effective visual presentations. Oct/49

Computers
Deriving INRs with customized tables (Computer Dialog). Jan/63
A program for assessing statistical QC procedures (Computer Dialog). Feb/55
Databased management of media (Computer Dialog). March/62
EDI: An acronym to watch (Computer Dialog). April/49
Electronic data transfer for hospital lab outreach programs. May/37
Using artificial intelligence in the laboratory (Computer Dialog). May/57
A computer program to aid in learning differentials and morphologies (Computer Dialog). June/55
Laboratory medicine: A 25-year retrospective. July/26
Thanks for the memory, Part 1 (Computer Dialog). July/60. Part 2. Aug/51
A rule-based system for cost savings in hematology. Sept/44
A PC buyer's primer, Part 1 (Computer Dialog). Sept/53. Part 2. Oct/70
Inventory control with a relational database (Computer Dialog). Nov/56
A computerized approach to QA. Dec/35
The instant M.B.A.: Software to help manage staff (Computer Dialog). Dec/46

Continuous quality improvement (CQI) *(see Quality improvement)*

Critical limits
Notifying clients of life-threatening results. Aug/44

Customer relations
Getting a second chance to make a first impression. Jan/22
A memorable celebration of National Lab Week. Feb/49
Why hiring a nontechnical marketing rep makes sense. March/60
A strong customer-vendor relationship is vital (Viewpoint). Aug/9
When drawing blood draws questions. Dec/32
Improving customer service by empowering staff. Dec/40

Delegation
When delegating is *not* the answer (Viewpoint). May/7

Discipline and counseling
Lend a helping hand (Viewpoint). Jan/7
Is it harassment, or just "horsing around"? (Viewpoint). Dec/7

Documentation
PT surveys: Monitoring corrective action. Jan/49
HCFA demands self-policing of test profiles (Washington Report). March/21
Forms to help you document for CLIA. March/45
Databased management of media (Computer Dialog). March/62
CLIA, Part 2: Dealing with inspections and paperwork under CLIA. May/30
How to be "note"-worthy: Tips for writing effective memos. Aug/33

Drug abuse testing
Workplace drug testing: Two cautionary cases. Jan/26

Education
A rural lab's response to CLIA's personnel standards. Feb/40
Does training increase employee retention? April/44
Linking the laboratory with future techs. June/38
Starting a flow cytometry user group. June/52
A computer program to aid in learning differentials and morphologies (Computer Dialog). June/55
Start your graduate off right (Viewpoint). July/9
Succession planning: A manager's guide. Sept/40
How to prepare effective visual presentations. Oct/49

Financial management
A strategy for supply cost savings. Jan/38
A rule-based system for cost savings in hematology. Sept/44
Pricing a capitated laboratory contract: 7 steps to the poor farm? Oct/38
Inventory control and purchasing at reduced cost. Nov/42

Fraud and abuse
HCFA demands self-policing of test profiles (Washington Report). March/21
Stark's latest bill threatens doctors in group practices (Washington Report). June/18
Fraud cops banding together (Washington Report). Oct/19
"Clarification" leaves safe harbors muddy (Washington Report). Oct/20

Government relations
Political battle takes shape over health reform (Washington Report). Jan/17
Groups vie to influence reform debate (Washington Report). March/18
HCFA demands self-policing of test profiles (Washington Report). March/21

1994 Editorial Index

Lab coalition pushes its reform agenda (Washington Report). May/14
CLIA on hold as labs await regulatory decisions (Washington Report). July/21
Laboratory medicine: A 25-year retrospective. July/26
Lab issues still pending as health reform goes to floor (Washington Report). Aug/17
Autopsy report: Why comprehensive health reform died (Washington Report). Oct/19

Health care reform *(see also: CLIA '88; Government relations)*
Political battle takes shape over health reform (Washington Report). Jan/17
Groups vie to influence reform debate (Washington Report). March/18
The impact of health care reform on the clinical lab. March/30
States push reform without waiting for Congress (Washington Report). April/18
Lab coalition pushes its reform agenda (Washington Report). May/14
Lab issues still pending as health reform goes to floor (Washington Report). Aug/17
Lab prospects hopeful as reform inches forward (Washington Report). Sept/17
Autopsy report: Why comprehensive health reform died (Washington Report). Oct/19

Health care trends
States push reform without waiting for Congress (Washington Report). April/18
Lab coalition pushes its reform agenda (Washington Report). May/14
Laboratory medicine: A 25-year retrospective. July/26
A blood gas network: Using blood gas and electrolyte analyzers at the point of care. Special Issue/2
The challenge of labs without walls. Special Issue/10
Point-of-care testing in a post anesthesia care unit. Special Issue/15
A BG&E program for cardiac surgery. Special Issue/20
Point-of-care testing: The Rush-Presbyterian-St. Luke's experience. Special Issue/26
POCT for coronary bypass patients: Fast results without bypassing quality. Special Issue/31
Pricing a capitated laboratory contract: 7 steps to the poor farm? Oct/38

Hematology
A computer program to aid in learning differentials and morphologies (Computer Dialog). June/55
A rule-based system for cost savings in hematology. Sept/44
Let's improve the flagging of abnormal hematology specimens. Nov/22

Hepatitis
Is your hepatitis B vaccine really protecting you? Sept/34

HIV infection *(see AIDS)*

Infection control
Fighting the TB dragon. Feb/31
TB testing: Methods and time targets. March/25
Is your hepatitis B vaccine really protecting you? Sept/34
An unrelenting killer spreads worldwide. Oct/29

Information management
Databased management of media (Computer Dialog). March/62
EDI: An acronym to watch (Computer Dialog). April/49
Electronic data transfer for hospital lab outreach programs. May/37
Thanks for the memory, Part 2 (Computer Dialog). Aug/51
Inventory control with a relational database (Computer Dialog). Nov/56
A computerized approach to QA. Dec/35

Inspection/accreditation
CLIA, Part 2: Dealing with inspections and paperwork under CLIA. May/30
CAP gains deemed status under CLIA (Washington Report). Aug/19

Institutional politics
Is bypassing your boss political suicide? (Viewpoint). June/9
The golden threads of great leaders (Viewpoint). Oct/9

Interviewing
Improve communication skills with question probes. Feb/46
Pay strategies, Part 3: Negotiating a compensation package. June/42

Job satisfaction
Does training increase employee retention? April/44
How we boosted employee morale. Sept/49

Laboratory, future
Lab coalition pushes its reform agenda (Washington Report). May/14
Regionalization, Part 1: The regionalization of laboratory services. June/22. Part 2: Lab regionalization: Structural options for the age of managed competition. July/48. Part 3: Lab networks: Models of regional cooperation. Aug/38
Point-of-care testing: The JCAHO perspective. June/46
Laboratory medicine: A 25-year retrospective. July/26

Laboratory ventures
A memorable celebration of National Lab Week. Feb/49
Linking the laboratory with future techs. June/38
An outreach program for home glucose monitoring. July/44
How we boosted employee morale. Sept/49
Improving customer service by empowering staff. Dec/40

Legal issues
Labs win appeal on overpayments (Washington Report). Oct/20
AABB weighs appeal in HIV negligence case (Washington Report). Oct/20
Legal aspects of transfusion medicine. Nov/33
Is it harassment, or just "horsing around"? (Viewpoint). Dec/7

Managed care
Regionalization, Part 1: The regionalization of laboratory services. June/22. Part 2: Lab regionalization: Structural options for the age of managed competition. July/48. Part 3: Lab networks: Models of regional cooperation. Aug/38
Pricing a capitated laboratory contract: 7 steps to the poor farm? Oct/38

Management techniques *(see also: Management Q & A Index)*
Lend a helping hand (Viewpoint). Jan/7
Performance feedback: The crown jewel of communication. Jan/43
Burnout: The price for caring (Viewpoint). Feb/7
A do-it-yourself orientation program for the new lab supervisor. April/38
When delegating is *not* the answer (Viewpoint). May/7
Paradigm changes in management: Are we just spinning our wheels? Aug/26
Succession planning: A manager's guide. Sept/40
The golden threads of great leaders (Viewpoint). Oct/9
Assessing the quality of management decisions. Oct/24
When to change, bend, or modify the rules. Oct/46
A step-by-step approach to implementing change. Oct/53
Psycho-cybernetics: The proactive approach to stress management. Nov/28
Is it harassment, or just "horsing around"? (Viewpoint). Dec/7
The instant M.B.A.: Software to help manage staff (Computer Dialog). Dec/46

Marketing *(see Laboratory ventures)*

Medicare/Medicaid *(see Reimbursement)*

Memo writing
How to be "note"-worthy: Tips for writing effective memos. Aug/33

MLO
Looking back . . . one last time (Viewpoint). March/7
Laboratory medicine: A 25-year retrospective. July/26
The winners of *MLO*'s 1994 Article Awards Contest. Nov/55

Near-patient testing *(see Point-of-care testing)*

Orientation
A do-it-yourself orientation program for the new lab supervisor. April/38
Start your graduate off right (Viewpoint). July/9

Patient test management
Electronic data transfer for hospital lab outreach programs. May/37
Changing the way lab medicine is practiced at the point of care. July/33
Stat testing, Part 1: Stats: Tolerable for some, a major headache for others. Dec/20. Part 2: Stat testing triumphs and disappointments. Dec/26

Performance evaluations/standards
Performance feedback: The crown jewel of communication. Jan/43
A rural lab's response to CLIA's personnel standards. Feb/40
Pay strategies, Part 1: Toward a new pay strategy. April/24. Part 2: Managing employee pay the new way. May/46

1994 Editorial Index

Phlebotomy
Implementing a pediatric phlebotomy protocol. April/32
When drawing blood draws questions. Dec/32

Physician relations
Improving customer service by empowering staff. Dec/40

Physicians' office laboratories (POLs)
The impact of health care reform on the clinical lab. March/30
Stark's latest bill threatens doctors in group practices (Washington Report). June/18
CLIA advisers reject APT test category (Washington Report). June/21

Point-of-care testing
Point-of-care testing: The JCAHO perspective. June/46
Changing the way lab medicine is practiced at the point of care. July/33
A blood gas network: Using blood gas and electrolyte analyzers at the point of care. Special Issue/2
The challenge of labs without walls. Special Issue/10
Point-of-care testing in a post anesthesia care unit. Special Issue/15
A BG&E program for cardiac surgery. Special Issue/20
Point-of-care testing: The Rush-Presbyterian-St. Luke's experience. Special Issue/26
POCT for coronary bypass patients: Fast results without bypassing quality. Special Issue/31

Problem solving
Remedies for the scheduling headache (Viewpoint). April/9
Paradigm shifts in microbiology. May/42
Using artificial intelligence in the laboratory (Computer Dialog). May/57
TQM, Part 1: Total quality management: In its prime or past its peak? Sept/22. Part 2: TQM: Successes, failures, and wishful thinking. Sept/28
How total error can save time and money for the lab. Nov/48
Stat testing, Part 2: Stat testing triumphs and disappointments. Dec/26
A computerized approach to QA. Dec/35
The instant M.B.A.: Software to help manage staff (Computer Dialog). Dec/46

Procedures, policies, protocols
Establishing and evaluating QC acceptability criteria. Feb/22
Implementing a pediatric phlebotomy protocol. April/32
Is bypassing your boss political suicide? (Viewpoint). June/9
Stick 'em up: Optimizing results with urinalysis dipsticks. June/32
Does your laboratory need a moonlighting policy? Aug/22
Notifying clients of life-threatening results. Aug/44
Revamping the lab's staffing structure. Aug/46
A blood gas network: Using blood gas and electrolyte analyzers at the point of care. Special Issue/2
The challenge of labs without walls. Special Issue/10
Point-of-care testing in a post anesthesia care unit. Special Issue/15
A BG&E program for cardiac surgery. Special Issue/20
Point-of-care testing: The Rush-Presbyterian-St. Luke's experience. Special Issue/26
POCT for coronary bypass patients: Fast results without bypassing quality. Special Issue/31
Pricing a capitated laboratory contract: 7 steps to the poor farm? Oct/38
When to change, bend, or modify the rules. Oct/46
A step-by-step approach to implementing change. Oct/53
Let's improve the flagging of abnormal hematology specimens. Nov/22
Inventory control and purchasing at reduced cost. Nov/42
How total error can save time and money for the lab. Nov/48
Is it harassment, or just "horsing around"? (Viewpoint). Dec/7
When drawing blood draws questions. Dec/32
The instant M.B.A.: Software to help manage staff (Computer Dialog). Dec/46

Professional image and status
A memorable celebration of National Lab Week. Feb/49
Linking the laboratory with future techs. June/38
Professionalism: Maintaining high ground (Viewpoint). Nov/9

Proficiency testing
PT surveys: Monitoring corrective action. Jan/49
Predicting the risk of failure in proficiency testing. March/52
Proficiency testing: Error prevention and correction. April/28

Purchasing
A strategy for supply cost savings. Jan/38
A strong customer-vendor relationship is vital (Viewpoint). Aug/9
A PC buyer's primer, Part 1 (Computer Dialog). Sept/53. Part 2. Oct/70
Inventory control and purchasing at reduced cost. Nov/42

Quality assurance *(see also: Quality control; Quality improvement)*
Integrating CQI and QA. Jan/33
Monitoring the quality of testing performed by referral laboratories. March/36
Forms to help you document for CLIA. March/45
Proficiency testing: Error prevention and correction. April/28
A computerized approach to QA. Dec/46

Quality control *(see also: Quality assurance; Quality improvement)*
Establishing and evaluating QC acceptability criteria. Feb/22
A program for assessing statistical QC programs (Computer Dialog). Feb/55
Predicting the risk of failure in proficiency testing. March/52
Proficiency testing: Error prevention and correction. April/28
Stick 'em up: Optimizing results with urinalysis dipsticks. June/32
An outreach program for home glucose monitoring. July/44
How total error can save time and money for the lab. Nov/48

Quality improvement *(see also: Quality assurance; Quality control)*
Integrating CQI and QA. Jan/33
Reducing turnaround time for ABGs in the ICCU. Feb/43
Proficiency testing: Error prevention and correction. April/28
Paradigm shifts in microbiology. May/42
Point-of-care testing: The JCAHO perspective. June/46
Paradigm changes in management: Are we just spinning our wheels? Aug/26
TQM, Part 1: Total quality management: In its prime or past its peak? Sept/22. Part 2: TQM: Successes, failures, and wishful thinking. Sept/28
Assessing the quality of management decisions. Oct/24

Record keeping *(see Information management)*

Recruitment
Improve communication skills with question probes. Feb/46
A memorable celebration of National Lab Week. Feb/49
Linking the laboratory with future techs. June/38

Referral laboratories
Monitoring the quality of testing performed by referral laboratories. March/36

Reimbursement
Looking back . . . one last time (Viewpoint). March/7
HCFA demands self-policing of test profiles (Washington Report). March/21
Stark's latest bill threatens doctors in group practices (Washington Report). June/18
APGs next up for Medicare? (Washington Report). July/24
Laboratory medicine: A 25-year retrospective. July/26
Labs win appeal on overpayments (Washington Report). Oct/20

Result reporting
Deriving INRs with customized tables (Computer Dialog). Jan/63
Reducing turnaround time for ABGs in the ICCU. Feb/43
Monitoring the quality of testing performed by referral laboratories. March/36
INR reporting of prothrombin time. May/51

Retention
Does training increase employee retention? April/44
How we boosted employee morale. Sept/49

Retraining *(see Education)*

Safety
Fighting the TB dragon. Feb/31
TB testing: Methods and time targets. March/25

1994 Editorial Index

Is your hepatitis B vaccine really protecting you? Sept/34
An unrelenting killer spreads worldwide. Oct/29

Salaries
Pay strategies, Part 1: Toward a new pay strategy. April/24. Part 2: Managing employee pay the new way. May/46. Part 3: Negotiating a compensation package. June/42

Scheduling
Remedies for the scheduling headache (Viewpoint). April/9

Service
Getting a second chance to make a first impression. Jan/22
Reducing turnaround time for ABGs in the ICCU. Feb/43
Paradigm shifts in microbiology. May/42

Sexual harassment
Is it harassment, or just "horsing around"? (Viewpoint). Dec/7

Specimen processing
Stick 'em up: Optimizing results with urinalysis dipsticks. June/32

Staff morale/relations
A memorable celebration of National Lab Week. Feb/49
A do-it-yourself orientation program for the new lab supervisor. April/38
Does training increase employee retention? April/44
Linking the laboratory with future techs. June/38
How we boosted employee morale. Sept/49
The golden threads of great leaders (Viewpoint). Oct/9
Professionalism: Maintaining high ground (Viewpoint). Nov/9
Is it harassment, or just "horsing around"? (Viewpoint). Dec/7

Staffing
Looking back . . . one last time (Viewpoint). March/7
Remedies for the scheduling headache (Viewpoint). April/9
Revamping the lab's staffing structure. Aug/46
Succession planning: A manager's guide. Sept/40

Stat testing
Stat testing, Part 1: Stats: Tolerable for some, a major headache for others. Dec/20. Part 2: Stat testing triumphs and disappointments. Dec/26

Stress and burnout
Burnout: The price for caring (Viewpoint). Feb/7
Psycho-cybernetics: The proactive approach to stress management. Nov/28

Supplies
A strategy for supply cost savings. Jan/38
Inventory control and purchasing at reduced cost. Nov/42

Technology *(see also: Computers)*
Looking back . . . one last time (Viewpoint). March/7
Starting a flow cytometry user group. June/52
Laboratory medicine: A 25-year retrospective. July/26

Time management
When delegating is *not* the answer (Viewpoint). May/7

Total quality management *(see Quality improvement)*

Training *(see Education)*

Tuberculosis
Fighting the TB dragon. Feb/31
TB testing: Methods and time targets. March/25

Turnaround time
Reducing turnaround time for ABGs in the ICCU. Feb/43
Paradigm shifts in microbiology. May/42
Changing the way lab medicine is practiced at the point of care. July/33
Stat testing, Part 1: Stats: Tolerable for some, a major headache for others. Dec/20. Part 2: Stat testing triumphs and disappointments. Dec/26

Universal precautions *(see Infection control)*

Vendor relations
A strong customer-vendor relationship is vital (Viewpoint). Aug/9

MANAGEMENT Q & A INDEX

Absenteeism
Gearing up for the Family/Medical Leave Act. March/73
Motivating employees to not abuse sick time. Aug/63

Accreditation *(see Inspection and accreditation)*

Attitude/behavior problems
Handling passive-aggressive employees. March/79
Is the work ethic deteriorating? April/48
Handling warring employees. May/68
A tech who's overbearing, bossy, and manipulative. June/68
Violent workplace incidents. July/67
Motivating employees to not abuse sick time. Aug/63
Forgetting there are people behind the test tubes. Aug/66
Easing turbulence between nurses and laboratorians. Nov/67
Technologist troubled over manager's clowning around. Dec/54

Benefits and perks
A cruise in exchange for a chemistry instrument. April/46
"I'm a laboratorian, not Santa Claus." June/68

Blood banking
Liability issues in cytology and blood bank. Oct/65

Budgeting *(see Financial management)*

Burnout *(see Stress and burnout)*

Career development
Mentor gender. Jan/57
Does medical technology have a glass ceiling? Aug/65

CLIA '88
Maintaining competency according to CLIA. Jan/57
More education, but same work and same pay. Feb/52
"No inspection? No lab work accepted by our hospital." July/68
Warnings of CLIA violations fall on deaf ears. Oct/64
Nonlaboratorians performing tests after hours. Nov/69
Has CLIA gone overboard? Dec/55

Communication
Tips on writing memos. Jan/53
Meeting leaves team unsupported and demoralized. July/69
Easing turbulence between nurses and laboratorians. Nov/67

Continuing education *(see Education)*

Counseling *(see Discipline and counseling)*

Cross-training
Cross-training in the micro lab. March/75
"Should we rotate through departments?" Aug/66

Customer relations
When docs don't understand what they're ordering. Aug/65
How to avoid running superfluous Stats. Nov/67

Customer service
Forgetting there are people behind the test tubes. Aug/66

Cytology
Liability issues in cytology and blood bank. Oct/65

Decision making
Can no decision ever be the best decision? Jan/53
Change for change's sake only. Sept/63

Discipline and counseling
Mentor gender. Jan/57
Handling passive-aggressive employees. March/79
Handling warring employees. May/68

Duty disputes
Lawsuits over jobs not meeting promises. April/47
"Should we rotate through departments?" Aug/66
Nonlaboratorians performing tests after hours. Nov/69

Education
More education, but same work and same pay. Feb/52
Cross-training in the micro lab. March/75
Interesting in-house CE programs. June/70
When docs don't understand what they're ordering. Aug/65
Should CE and community outreach be cut? Oct/67

Financial management
Negotiating budgets. March/77
Keep tests in or send them out? April/46
Should CE and community outreach be cut? Oct/67

Fraud and abuse
The ethics of bid shopping. Feb/51

Hematology
Updating hematology reference intervals. Dec/56

Hiring and firing
When layoffs loom, who stays and who goes? Feb/54
Easing the strain of laying off an employee. May/73
Should manager have access to performance evaluations? Nov/68

Inspection and accreditation
"No inspection? No lab work accepted by our hospital." July/68

Institutional politics
The ethics of bid shopping. Feb/51
A cruise in exchange for a chemistry instrument. April/46
"I'm a laboratorian, not Santa Claus." June/68

Interdepartmental relations
Negotiating budgets. March/77
Responding to unrealistic management expectations. April/48
When docs don't understand what they're ordering. Aug/65
Easing turbulence between nurses and laboratorians. Nov/67
How to avoid running superfluous Stats. Nov/67

Job descriptions
Nonlaboratorians performing tests after hours. Nov/69

Job satisfaction
Lawsuits over jobs not meeting promises. April/47
Is automation making for monotony? July/67
Does medical technology have a glass ceiling? Aug/65

Laboratory utilization
Keep tests in or send them out? April/46
Panels and profiles: Timesavers or trouble? July/68
When docs don't understand what they're ordering. Aug/65
PKU testing and early newborn release. Sept/63
How to avoid running superfluous Stats. Nov/67

Legal issues
Lawsuits over jobs not meeting promises. April/47
Can tech sue lab for failure to provide adequate gloves? Sept/64
Liability issues in cytology and blood banking. Oct/65
Should manager have access to performance evaluations? Nov/68

Management techniques
Can no decision ever be the best decision? Jan/53
Successful juggling of time and tasks. Feb/51
TQM: On the way up or out? March/73
Handling warring employees. May/68
Labs as learning organizations. May/68
Easing the strain of laying off an employee. May/73
At odds over management styles. June/70
Is nagging necessary? Aug/63
Change for change's sake only. Sept/63
Assertion without aggression. Sept/64

Memo writing
Tips on writing memos. Jan/53

Morale *(see Staff morale)*

Motivation
One cohesive professional voice. May/71
Is automation making for monotony? July/67
Motivating employees to not abuse sick time. Aug/63

New manager
Successful juggling of time and tasks. Feb/51
At odds over management styles. June/70

Patient test management
PKU testing and early newborn release. Sept/63
How to avoid running superfluous Stats. Nov/67
Incorrect processing and diluting of fluids. Dec/56

Performance evaluations/standards
When layoffs loom, who stays and who goes? Feb/54

1994 Editorial Index

Performance evaluation forms that emphasize teamwork. Oct/64
Should manager have access to performance evaluations? Nov/68

Personnel shortage
Gearing up for the Family/Medical Leave Act. March/73

POLs
"No inspection? No lab work accepted by our hospital." July/68

Problem employee
When the stress is more than a tech can bear. April/47
Handling warring employees. May/68
A tech who's overbearing, bossy, and manipulative. June/68
Violent workplace incidents. July/67

Problem lab manager
Change for change's sake only. Sept/63
Technologist troubled over manager's clowning around. Dec/54

Problem lab supervisor
When a supervisor plays babysitter. Sept/62

Problem solving
TQM: On the way up or out? March/73
Responding to unrealistic management expectations. April/48
Labs as learning organizations. May/68
Motivating employees to not abuse sick time. Aug/63

Procedures, policies, protocols
Maintaining competency according to CLIA. Jan/57
Gearing up for the Family/Medical Leave Act. March/73
Are OSHA regs overkill? May/69
Easing the strain of laying off an employee. May/73
Panels and profiles: Timesavers or trouble? July/68
"Should we rotate through departments?" Aug/66
Responding to a formaldehyde/formalin spill. Sept/62
PKU testing and early newborn release. Sept/63
How to avoid running superfluous Stats. Nov/67
Should manager have access to performance evaluations? Nov/68
Convincing staff to take safety seriously. Dec/54
Has CLIA gone overboard? Dec/55
Incorrect processing and diluting of fluids. Dec/56

Professional image/status
PR for MTs. Feb/54
Is the work ethic deteriorating? April/48
One cohesive professional voice. May/71

Quality improvement
TQM: On the way up or out? March/73

Safety
Could a poor seat put you in the hot seat? Jan/55
Are OSHA regs overkill? May/69
Responding to a formaldehyde/formalin spill. Sept/62
Can tech sue lab for failure to provide adequate gloves? Sept/64
Convincing staff to take safety seriously. Dec/54

Salaries
Does medical technology have a glass ceiling? Aug/65

Scheduling
Cross-training in the micro lab. March/75

Staff morale
Is automation making for monotony? July/67
Meeting leaves team unsupported and demoralized. July/69

Staff relations
She likes me; she likes me not. March/77
Handling warring employees. May/68
A tech who's overbearing, bossy, and manipulative. June/68
Meeting leaves team unsupported and demoralized. July/69
Technologist troubled over manager's clowning around. Dec/54

Stress and burnout
Successful juggling of time and tasks. Feb/51
When the stress is more than a tech can bear. April/47
When a supervisor plays babysitter. Sept/62

Teamwork
Performance evaluation forms that emphasize teamwork. Oct/64

Time/workload management
Successful juggling of time and tasks. Feb/51
Panels and profiles: Timesavers or trouble? July/68

Training *(see Education)*

Vendor relations
The ethics of bid shopping. Feb/51
A cruise in exchange for a chemistry instrument. April/46

Work ethic
Is the work ethic deteriorating? April/48
Forgetting there are people behind the test tubes. Aug/66

TIPS ON TECHNOLOGY INDEX

ABO isohemagglutinin and recurrent sinusitis. Oct/17
Accuracy vs. linearity. Jan/9
Antibiotics for *S. pneumoniae.* Nov/16
Auto control and routine blood bank testing. Oct/14
Autologous controls, need for. Dec/12
Barium contamination of stool cultures. May/10
Blood collection during transfusion. Nov/13
Blood cultures. Jan/13
Blood warmers. Aug/11
Bloody fluids, red cells in. Feb/12
Bronchial lavages. Oct/13
Carbon monoxide toxicity. Nov/13
Cardiac troponin-I. Sept/11
CD4 results, biologic variation of. July/14
Chewing gum and tests. Sept/11
Cholesterol values and garlic. Jan/13
Coagulation instruments, choosing. May/9
Coagulation test controls. June/12
Coagulation testing, bedside. July/13
Coagulation tests, appropriate ordering of. Aug/11
Corrected reports. Nov/16
Cost/benefit of screening. Feb/11
D-dimer test. Sept/12
Desialylated transferrin. April/11
Electricity, static, in the lab. Dec/12
Eosinophilia. Feb/12
Fibrinogen by nephelometry. Oct/13
Garlic and cholesterol values. Jan/13
Gelatinous specimens. May/9
Glucose, urine dipstick. March/14
Hashimoto's thyroiditis, testing for. Oct/14
Hazardous chemicals, shelf life of. Jan/15
Helicobacter pylori. Dec/10
Hematology QC. Aug/12
Hematuria and UTI. April/11
Hemoglobin, preanalytic variability of. March/11
Hemolysis, in vitro. March/16
HIV patients, stool AFB on. Sept/11
HIV-positive blood specimens, prevalence of. Oct/13
Home pregnancy test. Dec/10
IgM versus IgG in TORCH testing. Sept/12
International Normalized Ratio. April/14
Ionized magnesium. June/17
Linearity vs. accuracy. Jan/9
Magnesium, ionized. June/17
Methemoglobin, stability of. Nov/14
Myoglobin, urine. March/11
Neisseria meningitidis. April/14
PKU testing. June/11
Potassium on capillary specimens. Nov/14
Pregnancy test, home. Dec/10
Prothrombin time specimens, storing. July/14
PTs/PTTs, shortened. Jan/10
RBC morphology. Dec/9
Red cell inclusions, staining of. May/10
Red cells in bloody fluids. Feb/12
RPR-positive newborns, protocol for testing. May/10
Schilling test. Jan/10
Screening, cost/benefit of. Feb/11
Sinusitis, recurrent, and ABO isohemagglutinin. Oct/17
Sperm in urine. Dec/9
Sperm motility. Feb/11
SSA and urine protein testing. Aug/14
Stat testing, percentage of. April/11
Static electricity in the lab. Dec/12
Stool AFB on HIV patients. Sept/11
Stool cultures, barium contamination of. May/10
Streptococcus, carriers of group B. Aug/12
Streptococcus pneumoniae, antibiotics for. Nov/16
Thyroid testing in the sick patient. Dec/9
Thyroiditis, Hashimoto's. Oct/14
TORCH testing, IgM versus IgG in. Sept/12
Transferrin, desialylated. April/11
Transfusion, blood collection during. Nov/13
Troponin-I, cardiac. Sept/11
Urine culture contamination. Feb/12, July/13
Urine dipstick glucose. March/14
Urine myoglobin. March/11
Urine protein testing and SSA. Aug/14
UTI and hematuria. April/11
